NOTICE TO THE BAR

NATIONAL DATA CENTER – READY TO SERVE ATTORNEYS AND DEBTORS

Did you know? The National Data Center (NDC) now offers free access to Debtors and Debtor's attorneys. Visit the link below to view the "NDC – Get Started for Debtors" tutorial video found on YouTube at <https://www.youtube.com/watch?v=dsHzJ4IRx6s>

FOR DEBTORS: You may access the NDC website at www.13datacenter.com. This website provides you with the latest information on your Chapter 13 plan. Once you register with the NDC and obtain a Username and Password you will be able to track your case, obtain case alerts and notifications from your trustee. The site will provide you with information respecting your most recent payments, claims being paid through the plan and your payment progress.

FOR DEBTOR'S ATTORNEYS: You will soon receive an e-mail from the National Data Center notifying you that our office has created an account for you. Once you receive this e mail you will be able to create your own password and complete your registration. Access to NDC will allow you to better prepare for confirmation, and hearings on Certs of Defaults and Motions to Dismiss. You will have your docket of cases at your fingertips. Please note that you can create a single sign on for your portfolio that spans two or more Trustees.

We are presently testing the release of disbursements via Electronic Funds Transfer (EFT). Attorneys wishing to receive monthly disbursements in this secure paperless manner will need an account and password to access their voucher information for Electronic Funds Transfer.
